EDUCATION

Bachelor of Science, Mathematics and Computer Science

Eastern Mediterranean University, Famagusta, Northern Cyprus (via Mersin 10, Turkey)

- Graduated January 2026
- Cumulative GPA: 3.66/4.00 – **High Honor**
- Vice President of Eastern Mediterranean University Mathematics Club (2025-2026)

Full-Stack Web Development Program

Zulfah, Aduke Close, Maryland Crescent, Lagos, Nigeria.

- Started February 2026
- Completed hands-on training in frontend development tools.
- Built responsive, component-based websites during internship.
- Earned a certificate in Frontend Development (September 2026)
- Backend Development to follow after completion of frontend capstone project.

ACADEMIC AND RESEARCH EXPERIENCE

Final Year Project:

Continued Fractions: Theory, Convergents and Applications to Pell's Equation.

Self-study project supervised by Assoc. Prof. Dr. Arran Fernandez.

- Conducted an independent study on continued fractions, types of continued fractions, convergence properties with proofs and recurrence formulas for convergents with examples.
- Explored relevance of continued fractions.
- Investigated the connection between continued fractions and Pell's equation, deriving fundamental solutions using convergents of $\sqrt{D}$.

TECHNICAL SKILLS

FRONTEND DEVELOPMENT:

- HTML5, CSS3, JavaScript (ES6)
- React.js, Tailwind CSS
- Responsive Web Design

TOOLS & OTHER LANGUAGES:

- Git, GitHub, CLI, VS Code
- Python, SQL

PROJECTS

PPA SCOUTS (HTML5, CSS3, JavaScript)

- A website where current and past Nigerian Corp members can find PPA locations for their NYSC (National youth Service Corps) and submit recommendations for new locations.

Riri'sLuxeEats (React.js, Tailwind CSS – In progress)

- Currently building a restaurant website where customers can browse menu for international dish of their choice, place order, view order history and proceed for payment.

MEDIMEAL (Title may be changed): **TEAM PROJECT** (React.js, Tailwind CSS – In Development)

- A donation platform **I originated**, connecting donors to vendors (pharmacies, food vendors) on behalf of patients.
- Defined the pilot model, core features and security requirements.
- Currently working on the User Interface Design (UI Design) with a team of three other frontend developers.
- Gathered a team of three backend developers who will build the backend for the website once the UI is complete.
- Plan to launch the platform in Nigeria once development is complete to help patients access medicines and food, thereby reducing patients' financial burden.

SHARELTER: **TEAM CAPSTONE PROJECT** (React.js, Tailwind CSS – In Development)

(This project is private on GitHub as it is an actual client project currently supervised by Zulfah's product Manager).

- A multi-role digital property-rental platform designed to help people find rental properties easily.
- Assigned to build the following pages: browse listings page (default and logged in), property photo carousel, the profile and edit profile pages, the listings page and all its variations, and the users page.
- Translating Figma designs into responsive and functional interfaces.
- Currently working with a team of frontend and backend developers to build Sharelter.

CERTIFICATIONS

- **TryHackMe – Pre Security Learning Path:** Certificate of Completion: [View Certificate](#)
- **Zulfah – Frontend Development Completion certificate:** [View Certificate](#)
